of Massive Pressure Ulcers, 93**

A WORD TO THE WHYS

WHY AMA? Commitment to maintaining high quality at all levels of medical education is one of the AMA's proudest traditions. The AMA creates policy for medical education, participates in accreditation activities, and supplies the public with information on medical education issues. Proven dedication to high standards in medical education: it's one more good reason why you should be a part of the AMA.

WHY AMA? Now, for the first time there's a forum for hospital medical staffs to meet nationally to discuss common problems and changes in physician-hospital relationships. The Hospital Medical Staff Section was recently created by the AMA to provide leadership in ensuring quality patient care during this period of massive hospital restructuring. It's one more good reason why you should be a part of the AMA.

To Join, Contact your county or state medical society or write: Division of Membership, AMA, 535 North Dearborn Street, Chicago, Illinois 60610 or call collect, (312) 751-6196.
